Wall-Mount Smart Wi-Fi 3D Blu-ray Disc Player

FEATURES

Full HD 1080p 3D Blu-ray
Experience movies like you're actually part of the action with Samsung's 3D Blu-ray disc player. Combining the vivid Full HD 1080p picture quality of Blu-ray with three-dimensional realism provides the ultimate home entertainment experience.

Slim Wall-Mount Design
Designed to be paired with wall-mounted flat panel TV's, this sleek premium design is perfectly balanced with its symmetric exterior and side slot loading mechanism. Finished with high-end materials and lighting accents it is the perfect complement to your elegant wall-mount solution.

2D-to-3D Up-Conversion
Enjoy your favourite 2D movies in 3D with Samsung's advanced 2D-to-3D Up-Conversion. Using Samsung's advanced HyperReal™ Engine you can convert 2D content to 3D in real-time for a surreal three-dimensional experience.

Wireless LAN
Don't have an Ethernet jack in your room? No problem. Connect to the Internet wirelessly with the integrated Wireless LAN. Easily access Smart Hub "Apps", download firmware updates, interact with BD Live and connect with other DLNA devices seamlessly without the need for an Ethernet cable or jack.

Ultra-Fast Play
Tired of waiting for your Blu-ray player to boot-up? Samsung Blu-ray players are equipped with Ultra-Fast Play that boots to the main start-up screen in just 3 seconds! Movie loading times are also greatly reduced providing faster access to all your entertainment.

Smart Hub
Access your favourite content from the Internet including movies, music and even your social network. Browse for information with ease using Search All™, Social TV™, Your Video™ and a variety of Samsung "Apps". Unleash the true multimedia potential of your Samsung Smart Blu-ray player with Smart Hub.

AllShare™
Samsung's AllShare™ feature enables you to share multimedia content with other DLNA certified devices across your home network. Wired or wirelessly you can easily playback movies, photos and music from your computer or other networked device through your Blu-ray player all from the comforts of your couch.

USB ConnectShare™ Movie
Samsung's ConnectShare Movie™ capability allows you to playback various types of video, music, and image files via the USB port. You can attach a USB Drive or portable Hard Disk Drive and playback formats including DivX HD, MKV, MP3, WMA and JPEG HD.

HDMI™ with Anynet+ (HDMI-CEC)
A true plug and play product, HDMI™ enables you to connect your HD video and audio with one simple cable. The Anynet + (HDMI-CEC) feature allows you to operate multiple supported HDMI™ products with a single remote.

BD Wise™ 1080p Up-Scaling
This advanced technology takes DVD 1080p up-scaling to the next level with Blu-ray-like video quality. Using 2-way HDMI™ communication, the DVD player identifies supported Samsung HDTVs and the two devices automatically optimize picture settings for the highest quality DVD video.

BD Live
BD Live (Blu-ray Profile 2.0) lets you download additional content and interactive features directly to your Blu-ray player with an Internet connection on BD Live supported discs.
